

# EVO MAGAZINE UK CHOOSES BUGATTI CHIRON AS HYPERCAR OF THE YEAR

At this year's evo Car of the Year Awards, the Bugatti Chiron<sup>1</sup> was honoured as "Hypercar of the Year". The jury of the renowned British motoring journal explains the award as follows: "The Chiron doesn't conform to regular supercar or hypercar rules. No words come close to genuinely expressing what it is to have such unimaginable and totally deployable performance at your behest. It completely changes your perception of speed. What's possible, what's reasonable, what's marginal and what's plain stupid. It warps your mind."

This year, the evo Car of the Year Awards were presented for the 19th time. The category "Hypercar of the Year" is new and was created especially for the Chiron.

<sup>1</sup> Chiron: WLTP fuel consumption, l/100 km: low phase 44.6 / medium phase 24.8 / high phase 21.3 / extra high phase 21.6 / combined 25.2; CO2 emissions combined, g/km: 572; efficiency class: G
